MEMORANDUM OF UNDERSTANDING  
BETWEEN  
THE SURGEON GENERAL, UNITED STATES NAVY  
AND  
THE SURGEON GENERAL, UNITED STATES ARMY

SUBJECT: U.S. Army Veterinary Service Support for United States Navy

1. Purpose. This Memorandum of Understanding (MOU) is made by and between The Surgeon General of the United States Navy, hereinafter referred to as U.S. Navy; and The Surgeon General United States Army, hereinafter referred to as the U.S. Army. This MOU provides a basis for the use of U.S. Army Veterinary Service by the U.S. Navy. The MOU identifies responsibility and establishes relationships between subject parties. Memorandums of Agreement (MOAs) standardize common services, logistic support services, and maintenance provided by U.S. Navy installations to visiting or permanently assigned U.S. Army veterinary personnel.

2. References.

a. AR 40-657/NAVSUPINST 4355.4F/MCO P10110.31G/Veterinary Medical Food Inspection.

b. AR 40-905/SECNAVINST 6401.1, Veterinary Health Services.

c. DODD 1010.10, Health Promotion (Update pending publication.)

3. Provisions.

a. The U. S. Navy acknowledges that there is a special relationship between the U.S. Navy medical treatment facility commander and the U.S. Army Veterinary Service representative just as there is between the base medical commander and all base medical organizations. The U.S. Army Veterinary Services is considered an integral part of the local Naval medical staff and as such is **NOT** considered a tenant on the Naval base. This unique relationship entitles the Army veterinary service to receive common services, logistics support services, supply support, and maintenance support without reimbursement to the Naval commander.

Memorandum of Understanding

SUBJECT: U.S. Army Veterinary Service Support for United States Navy

b. The U.S. Army Veterinary Service, as DOD Executive Agent for Veterinary Services will provide equitable veterinary service support to naval facilities without reimbursement to the Army commander.

4. Implementation.

a. This MOU will remain in effect for an indefinite period. Either party may terminate it with at least 180 days advance notice to the other party.

b. This MOU will be reviewed as required. Amendments, changes and/or supplements may be made with the written mutual consent of both parties.

c. The Commander, U. S. Army Medical Department Activity/Center or appropriate overseas commander will negotiate local MOAs with the U.S. Navy responsible medical commander. The MOA will enumerate specific details of services/support provided by the local Naval medical commander to the Veterinary unit and the support/services provided by the Commander, U.S. Army Medical Department Medical Activity/Center to the local Naval commander. This MOU will become an enclosure to the MOAs derived therefrom.

  
RONALD R. BLANCK  
Lieutenant General  
The Surgeon General  
U.S. Army

  
R. A. Nelson  
Vice Admiral, MC  
Surgeon General  
U.S. Navy
